

# Uzziel Yi

Up and coming web-developer eager to gain experience and grow. Natural problem solver willing to troubleshoot until solution is reached.

## WORK EXPERIENCE

### Facilities Engineer — Hyatt Regency Miami, Miami

January 2007 - PRESENT

As a maintenance engineer I have been responsible for upkeep and repair of building facilities. Used troubleshooting skills to find best solution for problems in a constantly active and moving environment. Developed skills in dealing with a diversity of customers face to face as well as dealing with coworkers of different positions and skill sets.

### Forman assistant — Alejandro Fernandez P.A., Miami

January 2006 - November 2006

Performed renovations on residential properties. Responsible for specific projects with aid of helpers. Coordinated with city inspectors in code compliance.

## PROJECT EXPERIENCE

### Casa di Roma — Commercial website

Designed website for restaurant and franchises. Implemented MySQL database in .net core framework. Used an MVC type application with html, css and C# languages. Employed Google Maps API to connect users to proper restaurant locations. Added JavaScript in cart feature to create a Ui that users can easily read and update as they search.

### Blogz — Blog post webpage

Created a blog post site in python programming language. Used in conjunction with sqlalchemy for MySQL database functionality. Provided a user signup feature to restrict access to registered users. Added Bootstrap library for styling and UI.

## EDUCATION

### University of Miami, Miami — December 2017
